

The doors are open to Adult Education across the Island

Are you thinking of going back to school to get your GED or to earn high school credits?

After celebrating 11 years in adult education, the staff of Adult Education are enthusiastic and eager to begin another program year with you. Programs are underway in most centres, and students may choose to attend full- or part-time.

Evening classes are also available in some centres.

We continually take applications, so it's not too late to start! No cost to you!
